the owner:

The site and house is owned by KuBiB e.V. and is built up by a collective of mostly queer-feminist contexts. The work focuses on emancipatory movements, anti-discrimination and anti-racism. The workshop and seminar house is intended to create a place for people who are affected by discrimination or who work against discrimination. There have been no racist or misogynistic attacks on the house in the past. The house is well connected in the area and has contacts to people who may be able to help, e.g. the local fire brigade. It is important to KuBiB e.V. that everyone feels comfortable and safe on the premises and that sufficient protected areas are provided for e.g. women and LGBTIQ* persons.

organizational matters:

The house and the grounds are operated by the non-profit KuBiB e.V. on a donation basis. Normally a solidarity fee of 5 to 25 € per person and night is charged for the use by seminar and overnight guests. We have agreed with our hosts that we pay 5 € per person per night. Since some of us are also unable to pay this, we ask you to determine your accommodation price individually and in solidarity yourself and to indicate on the questionnaire what you can pay.

The main house should only be entered barefoot.

The privacy of the people living in the house must be protected. It is expected that the private outdoor areas of the existing wagons on the site will be respected and not entered.
